PROFESSIONAL SUMMARY

I am a problem-solving software engineer who enjoys analyzing complex challenges and building practical, efficient solutions. My background spans full-stack web development, web application design, and technical instruction, giving me the ability to understand both technical requirements and user needs. I approach every project with a logical mindset, breaking large problems into manageable tasks and creating clean code. Whether debugging applications, optimizing performance, or developing new features, I focus on delivering reliable solutions that improve the overall user experience.

SKILLS

HTML, CSS and JavaScript	React Native
Python	Django and ExpressJS frameworks
Java	MongoDB
Swift	Postgresql
React with JavaScript and TypeScript	Firebase

EMPLOYMENT HISTORY

❖ **Web Developer, General Assembly** Nov 2021 — Feb 2026
Manhattan, NY

As a Web Developer at a Programming School, I designed, developed, and maintained web applications that enhanced the learning experience for students and supported instructional staff. I collaborated with instructors to build interactive educational tools, implement new features, and improve existing platforms using modern web technologies.

My responsibilities included developing responsive user interfaces, integrating front-end and back-end functionality, troubleshooting technical issues, optimizing website performance, and ensuring applications were reliable and user-friendly. I also worked closely with students by providing technical guidance, assisting with coding challenges, and helping them understand software development concepts through practical examples.

This role strengthened my expertise in problem-solving, full-stack web development, debugging, and collaborating within an agile environment while delivering high-quality software solutions that met both educational and organizational needs.

EDUCATION

❖ **New Visions Charter High School for Advanced Math and Science II** 2019
High School Diploma

Graduated from New Visions Charter High School for Advanced Math and Science II, Class of 2019

❖ **Lehman College** 2023
Bachelor's Degree in Computer Science

Bachelor's Degree in Computer Science at Lehman College, Class of 2023 **Important Course Work:** Object

Oriented Programming, Web Development, Software Engineering, Mobile Programming, Operating Systems,
Database Development Process

❖ **General Assembly** 2021

Software Engineering Immersive Course

Software Engineering Immersive Course at General Assembly, 2021 Full-Stack of Web Development with different
frameworks and languages

Herbert H. Lehman College

of

The City University of New York

In pursuance of the authority vested in it by the laws of the State of New York and upon the recommendation of the Faculty of Lehman College and the Board of Trustees of the City University of New York confers upon

Julio Cesar Leon

who has completed the requisite course of study
the Degree of

Bachelor of Science

Computer Science

with all the rights and privileges, immunities and honors, thereto belonging and in testimony thereof it grants this diploma sealed with the seal of the college.

William C. Thompson
CHAIRPERSON OF THE BOARD

Feil
CHANCELLOR OF THE UNIVERSITY

[Signature]
PRESIDENT OF HERBERT H. LEHMAN COLLEGE

[Signature]
PROVOST AND SENIOR VICE PRESIDENT FOR
ACADEMIC AFFAIRS AND STUDENT SUCCESS

Dated at the City of New York, this first day of September, two thousand and twenty three.

CERTIFICATE OF COMPLETION

GENERAL ASSEMBLY

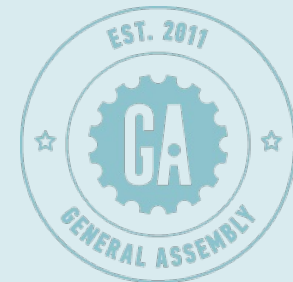

This certifies that

**Julio
Leon**

Has successfully completed:
Software Engineering Immersive Remote | 420 hours

Issue Date: 8/24/2021
Course Start Date: 5/17/2021
Date of Completion: 8/11/2021

CEO
